# SELF DRIVING CARS: FICTION OR REALITY?

*Imagine driving your car. A voice comes through the car audio: "Accident ahead. I've slowed the car down for you …", says the car.*

We are pleased to announce this special *IEEE* panel seminar led by Australia's experts in autonomous vehicles.

The seminar promises to be fascinating insight into these innovative technologies & showcases a NSW government trial currently taking place.  There is ample opportunity to ask questions in the interactive Q&A.

*spectrum.ieee.org (Ben Wiseman)*

** **RSVP by 23 October with your name & affiliation to [joe.mok.au@ieee.org](mailto:joe.mok.au@ieee.org)** **

**Date**: Thursday 30 October 2014

**Time**: 6pm for 6:30pm start (approx. 90 mins)

**Venue**: Wesley Conference Centre
220 Pitt St, Sydney

## From industry and academia
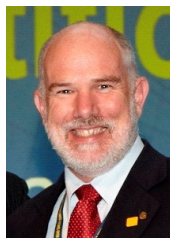

Fabien Cure – *Cohda Wireless*

Travis Waller – *Centre for Integrated Transport Innovation, UNSW*

Steven Scheding – *RioTinto Centre for Mine Automation, USYD*

## From the NSW government

John Wall – *Transport NSW*

## Q&A led by

Glenn Geers – *Infrastructure Transport & Logistics, NICTA*

Organising Committee:
IEEE NSW Chapter of Communications, Signal Processing & Oceans Engineering (Contact: Jinhong Yuan, UNSW)
IEEE Society on Social Implications of Technology (Contact: Lyria Bennett Moses, UNSW)
IEEE NSW Chapter of Photonics, Circuits & Systems, Solid-State Circuits & Electron Devices (Contact: Joe Mok, Freehills Patent Attorneys)
IET NSW Local Network (Contact: Ediz Cetin, UNSW)
IEEE Smart Cities Initiatives for Sydney (Contact: Ollencio D'Souza)
