

Dr. Rupam Goswami (Senior Member, IEEE, 2021) is an Assistant Professor at the Department of Electronics and Communication Engineering, Tezpur University, India. He received the doctoral degree in microelectronics from National Institute of Technology (NIT) Silchar in 2018. He has completed Master of Technology in Microelectronics and VLSI Design from NIT Silchar in 2014, and Bachelor of Technology in Electronics and Telecommunication Engineering from Assam Engineering College in 2012. Prior to joining Tezpur University, he has served in teaching positions at Birla Institute of Technology and Science Pilani, Pilani Campus, India, and Kalinga Institute of Industrial Technology, Bhubaneswar, India. His research interests include simulation, and modeling of semiconductor devices (TFETs, FinFETs, TFTs, advanced MOS devices), memristors as sensors, and charcoal electronics. He has 31 publications in SCI/SCIE journals, 18 publications in peer-reviewed conferences, 3 book chapters, and has served as the editor of two (02) technical books. He has two (02) patents and two (02) industry-based design registrations filed to his credit. He has delivered a number of invited talks at various events, is an Editorial Board Member of BMC Research Notes (SpringerNature), and Review Editor of Frontiers in Electronics-Nano- and Microelectronics . He has worked in the role of investigator in four (04) government-sponsored research projects . He is the recipient of the Young Scientist Award for 2021 by DST, Government of Assam, and the founder of VrixaaLabs: an open learning initiative.
