Dear Colleagues,

You are warmly invited to attend the following two major technical events to be held in Australia in January 2017:

- 2017 IEEE Australian Information Theory School (AusITS) to be held on 16-17 January, 2017
- The 17th Australian Communications Theory Workshop (AusCTW) to be held on 18-20 January, 2017

Both AusITS and AusCTW will be hosted by the Australian National University in Canberra, the capital city of Australia. These events are major annual events regularly held in different cities of Australia and New Zealand. They provide excellent opportunities for networking and sharing current research results through invited talks and poster presentations. We are excited to announce world-class keynote speakers and lectures for the events as follows:

AusCTW:

1. Prof. Young-Han Kim (UCSD)

2. Prof. Lee Swindlehurst (UCI)

3. TBA

AusITS:

1. Prof. Yingbin Liang (Syracuse University)

2. Prof. Krishna Narayanan (Texas A&M University)

3. Prof. Young-Han Kim (UCSD)

4. Prof. Vijay Kumar (Indian Inst. Science, Bangalore)

Please visit http://ausctw2017.org and http://ausits2017.org

The websites contain more information on program overview, call for posters, and student travel grants.

Please feel free to contact the general chair Prof. Parastoo Sadeghi (parastoo.sadeghi@anu.edu.au) should you have any question or need any further information.

Thanks and regards,

AusCTW and AusITS organizing committee
