FEMALE vs MALE ENGINEERS: WHO IS BETTER PREPARED TO FIND A JOB?

“Will I find a nice engineering job after my graduation?”

“How long will it take to get a job in engineering?”

If you are studying engineering, these questions probably have already been in your mind. This is especially vital if you are a young woman. Encountered this gender imbalance in class, you are probably thinking *“Will I feel comfortable working in the male-dominated engineering environment?”*

A group of experts from industry and academia are here to address these questions. **Come and join us on this very first exclusively interactive forum for all engineers** focusing on the myth that being a female engineer is tough and boring. We believe to completely change your perceptions about females being not suitable for engineering.

Be prepared for a hot discussion!

Dr. Olivia Mirza
Senior Lecturer & Academic Course Advisor
Western Sydney University

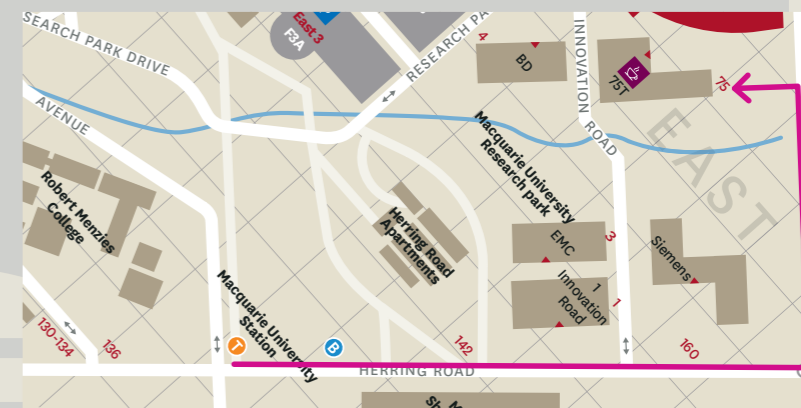

Alison Port
Radio Access Networks Manager
Ericsson

THE PANELISTS

MACQUARIE UNIVERSITY
WESTERN SYDNEY UNIVERSITY ACADEMIC EXPERTS
INDUSTRY EXPERTS FROM ERICSSON
AND ENGINEERS AUSTRALIA

THE PROGRAM

KNOWLEDGE-SHARING TALKS
PANEL DISCUSSION
NETWORKING

Thursday, 13 October 2016
03.30 PM - 05.30 PM

Room Continuum
Level 3, 75 Talavera Road
Macquarie University NSW 2109
